

Stay in control with Real-time Inventory.

Amadeus Online Suite

The Flight and Hotel Inventory Management modules in the Amadeus Online Suite revolutionize inventory management for travel agencies. These modules provide agencies with the capability to upload, manage, and distribute their real-time flight and hotel inventory seamlessly.

Why Choose Flight & Hotel Extranet Modules?

The Flight and Hotel Extranet modules are designed to cater to the evolving demands of travel agencies. These advanced tools allow seamless uploading, management, and distribution of real-time flight and hotel availability. Further they help to:

- Centralize management of custom inventory.
- Improve operational efficiency with real-time updates.
- Expand business reach with enhanced offerings.

1. Flight Inventory Management

The Flight Inventory Management module in Amadeus Online Suite is an advanced inventory management system designed to empower travel agencies with complete control over custom airline seat inventory. It allows agencies to define contracts, manage seat availability, and set dynamic pricing and booking rules in real time.

Dynamic Seat Allocation:

Allocate seat inventory in real time.

Contract Definition:

Set up airline contracts with detailed flight information.

Flexible Pricing Management:

Manage pricing with fare families and commercial rules like markups, discounts, and service fees.

Custom Inventory Rules:

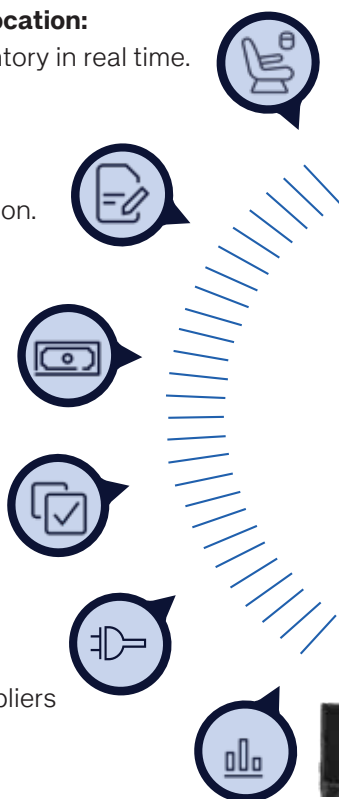

Define operational rules and policies for enhanced control.

Supplier Integration:

Integrated with B2C site suppliers for seamless management.

Enhanced Reporting Tools:

Generate comprehensive reports for informed decision-making.

Drive Revenue with Precision

Unlock new earning potential through customized flight offerings and dynamic pricing strategies.

Simplify Operations, Amplify Efficiency

Reduce manual work and streamline your workflow for faster, smarter results.

Deliver Elevated Customer Experiences

Enhance satisfaction with real-time content, transparent visibility, and tailored options.

Gain Full Control of Your Inventory

Manage availability, pricing, and policies in real time—at your fingertips.

2. Hotel Inventory Management

The HotelInventory Management in Amadeus Online Suite is a robust platform that enables travel agencies to manage hotel inventory and pricing with precision. It allows agencies to upload and update real-time inventory from their own partners or suppliers ensuring a wide range of accommodation options for travellers. This module plays a key role in boosting operational efficiency, offering greater flexibility in inventory management.

Room Inventory Management:

Upload and manage real-time hotel room availability.

Rate Management:

Customize room rates and apply promotional rules.

Integrated Add-Ons:

Customize room rates and apply promotional rules.

Policy Setup:

Define cancellation and booking policies for greater flexibility.

Dynamic Pricing & Custom Rules:

Update pricing based on seasonal demand or real-time availability.
Apply markups, service fees, and discounts.

Comprehensive Reports: :

Access insights into booking patterns and inventory utilization.

Personalized Travel, Perfectly Packaged

Tailor bundles to individual traveler preferences for a more engaging experience.

Smarter Inventory, Greater Impact

Maximize availability and efficiency with real-time inventory updates.

Simplified Operations, Streamlined Success

Empower your agency with tools that make travel package creation seamless.

Accelerated Revenue Growth

Boost profits through dynamic pricing, smart bundling, and diverse offerings.
